Spring Hill Nurseries

Peter Bohlender & Sons

Tippecanoe City

Miami County
Ohio

TRANSPORTATION CHARGES.

For several seasons we have prepaid the transportation charges on all orders of \$4.00 or more; but the inequality of this rule between patrons who live near and those who live at a distance led us to make a change.

As the total transportation charges amount to about 10% of the total amount of all orders, to make a rule fair and equal to all, we decided hereafter not to pay the transportation; but to allow each customer an additional 10% of his order, in stock, to pay transportation.

For Example— If an order amounts to \$20.00, the customer may add \$2.00 worth of stock of his own selection, free of charge. Thus he would get \$22.00 worth of stock for \$20.00.

If the order amounted to \$10.00, he would add \$1.00 in stock, and receive \$11.00 worth of stock for \$10.00.

SPRING HILL NURSERIES

Mail Order Department

J. B. CROUCH, Manager

DIRECT FROM THE NURSERIES TO THE PURCHASER.

Buy your nursery stock through the Mail Order Department. It is the safest, surest and most satisfactory way to obtain the stock you desire.

Be your own agent. Make your own selections of the stock you want, according to the names, sizes and prices quoted in the catalogue, write out your order plainly and send to us, and we will fill it just as though you were present in person making the selection of stock for yourself.

We exercise the utmost care to fill all orders exactly according to the specifications given us. If at any time a mistake is made, in any way, in varieties, sizes, prices, quality or quantity of stock, we will gladly and promptly make satisfactory correction when notified by our patrons.

All stock is well and carefully packed for shipment. The roots of trees, shrubs, vines, and plants are wrapped in moist straw, moss or excelsior, to prevent drying out, and we guarantee each shipment to reach our customer in good condition. Should any stock be damaged in transportation we will replace it with good stock free of charge.

CAN ANY FAIRER OFFER THAN THIS BE MADE?

We are sure that you could not go into a Nursery and make selection of stock for yourself better than what we will furnish according to your order.

We make this assertion with all BOLDNESS, because, we know that our stock consists of the very best of the time-tried and thoroughly tested varieties, that the quality is unsurpassed, and that our prices are as reasonable as can be obtained anywhere.

OUR AIM IS TO PLEASE OUR PATRONS.

We expect to do this by supplying them with just exactly what they order, and by giving them the full value of their investment.

SEND US YOUR ORDER AND WE WILL
PROVE TO YOU THAT WE MAKE
OUR PROMISES GOOD.

May be planted Spring and Fall.

California Privet

THE BEST AND CHEAPEST FENCE

(See prices page 11).

For a hedge fence there are many plants or shrubs that may be used with happy results and pleasing effect; but the great demand for California Privet proves it to be the most popular and satisfactory of all hedges.

One hundred plants set eight inches apart, the proper distance for planting, will make a fence 66 feet long, using our 18 to 24 inch size, would cost only \$6.50. This makes it cheaper than any other fence. In comparison with an iron or wood fence, it is a comparison of the living with the dead.
